- 1. Under normal circumstances, the warranty period of the device is 12 months (3 months for accessories), subject to the sales agreement.
- 2. During the product warranty period, under the normal use conditions (determined by our technical staff), the user will be entitled to a free warranty for damaged or faulty warranty parts.
- 3. During the warranty period, faults caused by repair, disassembly or modification of the product by a personnel other than our company, improper installation, improper use by the user (failure to follow instructions),serial number damage, accident or natural disaster, will not be covered under the warranty.

- 4. The warranty will expire immediately if any alterations are made to the warranty card.
- 5. Please show the equipment SN and purchase certificate for repair. The company reserves the right to interpret the above contents.
- 6.If you have trouble using the device, please e-mail to meferi@meferi.com.

NB

This product complies with the radio interference requirements of the European Community.

Product name: Wearable Ring Scanner

Product model: MS300R
Manufacturer: Meferi Technologies Co.,Ltd.
Frequency Range: 2.4GHZ-2.48GHZ,

Max. Transmit Power: 4.44 dBm
Max
SIMPLIFIED EU DECLARATION OF CONFORMITY

The simplified EU declaration of conformity referred to in Article 10(9) shall be provided as follows:
Hereby, Targus International LLC declares that radio equipment type H566A3T is in compliance with Directive 2014/53/EU, and this product is allowed to be used in all EU member states.
The full text of the EU declaration of conformity is available at following company website:www.meferi.com
This product can be used across EU member states.

EUT Operating temperature: -10~40°C

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
