

ME40K Mobile Computer

The Ultimate Enterprise Mobile Computer - Empower Your Business with Unmatched Performance and Reliability

The ME40K Mobile Computer is more than a tool - it's your indispensable partner in today's complex landscape of logistics, warehousing, retail, and more. It stands as the ultimate choice for data capture and mobile computing, providing a seamless blend of durability, flexibility, and performance. With features meticulously designed to meet the demanding tasks of modern industries, ME40K is more than equipped to elevate your workflows to new heights of efficiency and productivity. Experience the cutting-edge power and flexibility that only ME40K can provide. Investing in ME40K means investing in a powerhouse aimed to revolutionize your business.

Superior Display Quality

The 4.0 inch WVGA display boasts an impressive 450 NITS of brightness, ensuring readability even under direct sunlight. With Luxibright technology, the display offers superb color reproduction, wide viewing angles, and exceptional sunlight visibility. The high-resolution display is ideal for complex applications, offering clarity and sharpness that redefine user expectations.

Power Management for All-day Operations

Never worry about running out of battery during critical operations. The ME40K comes with a 5180mAh high-capacity battery, capable of sustaining up to 20 hours of continuous usage. Our innovative EnergyBooster+ technology optimizes power consumption, while the Hot Swap Battery feature lets you swap out batteries without shutting down the device offering an additional 10 minutes of operation from a backup battery even if the main battery is fully depleted.

Leading-Edge Features

Relentless Durability for Unforgiving Environments

Built to withstand the daily rigors of industrial use, boasting an IP67 rating, the ME40K is housed in a rugged frame designed for challenging environments - whether it's a dusty warehouse or a wet dockyard. The device is engineered with high-quality materials and equipped with Corning Gorilla Glass III. Specialized scanner glass protection adds an additional layer of protection, ensuring your device stays operational no matter what.

Additional Rugged Protection for Maximum Reliability

Understanding the varied needs of our clientele, we offer an optional Rugged Rubber Protective Cover. This supplement transforms the ME40K into an almost indestructible device, capable of withstanding significant shocks and drops. Your investment is further safeguarded, ensuring that this versatile tool is available to you when you need it most.

Unparalleled Connectivity: Always in Touch

Stay connected wherever you are. The ME40K offers extensive connectivity options, including WLAN (Wi-Fi), WPAN (Bluetooth), and WWAN (2G, 3G, 4G LTE). Whether it's dual nano SIM support or a mix of nano SIM and eSIM, this device ensures that you remain reachable and efficient, effectively eliminating downtime due to network issues.

Seamless Connectivity with Intelligent WiFi Roaming

ME40K boasts advanced WLAN features to sustain continuous, seamless connectivity. Experience the advantage of its Wi-Fi seamless roaming capabilities, which facilitate automatic and smooth transitions between access points. Eliminate the risk of data loss and workflow interruptions in the most demanding industrial settings. The device supports both 2.4GHz and 5GHz frequencies, with data rates of up to 150Mbps and 433Mbps respectively, ensuring optimal performance for your enterprise needs.

Discover the transformative power of the ME40K Mobile Computer. Dive deeper into its cutting-edge features and benefits at: www.meferi.com/me40k

AER and GMS: Endorsed for Secure Enterprise Utilization

With Google Mobile Services (GMS) certification and Android Enterprise Recommended status, ME40K guarantees that you're equipped with the latest security patches and enterprise features for a minimum of five years, securing your long-term investment.

Blazing Performance for Uninterrupted Workflows

At the heart of ME40K lies a powerful Qualcomm Snapdragon SD662 octa-core processor, backed by a robust 4GB RAM and 64GB eMMC. This results in an incredibly fast device capable of handling multiple applications simultaneously, offering you the speed and versatility you need to stay ahead in today's fast-paced world.

Secure Your Data Like Never Before

Security is paramount, and with Android 12 OS and verified boot support, ME40K takes it seriously. The device comes equipped with multiple layers of advanced security features, protecting your confidential data from unauthorized access and potential risks. Enjoy peace of mind, knowing that your business data is secure.

Tailored Data Capture Solutions for Every Need

ME40K offers a selection of state-of-the-art scanning modules: choose from Zebra's SE4770, Honeywell's HS7, or MEFERI's SE5070. Each offers rapid data recognition and image capture to suit your specific needs enabling you to capture even poorly printed, damaged, or low-contrast linear or two-dimensional barcodes with ease. Zebra scanners elevate your capabilities further with exclusive PRZM technology, allowing ultra-fast and highly accurate scanning of even challenging 1D and 2D barcodes. Choose ME40K and miss nothing critical.

Capture More with Exceptional Camera Capabilities

Step up your data capture game with ME40K's sophisticated camera system. The front-facing 5MP camera is tailored for video conferencing and essential document capture. The rear 13MP high-resolution camera adds another dimension, supporting PDAF for razor-sharp focus and 1080p video for dynamic visual data capture. With the added convenience of Torch and Flash modes, you're always equipped to capture data in any lighting condition. Choose ME40K for a complete, versatile imaging solution.

Precision Geolocation with Advanced Satellite Support

Unleash the power of ME40K's comprehensive geolocation capabilities, backed by the support of GPS, A-GPS, GLONASS, Galileo, and Beidou satellite systems. Whether navigating intricate warehouse layouts or tracking assets across extensive outdoor spaces, the ME40K ensures highly accurate and instantaneous

location data. Eliminate guesswork and elevate operational efficiency by leveraging cutting-edge satellite technology for precise real-time positioning.

Accessorize for Specific Needs

Personalize your ME40K with an array of specially designed accessories. From single-slot cradles for quick charging to 4-slot battery stations for large operations, we provide a multitude of options that can be tailored to your unique business needs.

Simplify Peripherals with Bluetooth 5.0

Enhance the functionality of your ME40K by connecting a range of peripherals via Bluetooth 5.0. This robust Bluetooth suite supports a variety of profiles, including HFP, PBAP, A2DP, AVRCP, OPP, SPP, and GATT, allowing for effortless pairing with mobile printers, headsets, and more. Elevate productivity by streamlining peripheral connectivity and reducing the need for cumbersome wired setups.

Smooth and Easy System Integration

Our device easily integrates with a variety of Enterprise Resource Planning (ERP) and Warehouse Management Systems (WMS), offering a seamless transition and immediate operational improvements. Compatibility is never an issue with the ME40K.

Unmatched Warranty and Support

When you invest in ME40K, you're backed by an industry-leading warranty and 24/7 customer support. Our dedicated teams are always ready to assist you with any queries or issues, providing you with uninterrupted, high-quality service. Elevate your business operations to a new level of excellence with the ME40K Mobile Computer - your ultimate tool for success in this ever-changing digital landscape.

Enterprise Mobility with MDM / EMM

MEFERI devices support leading MDM and EMM solutions, helping businesses securely deploy, configure, and manage enterprise Android fleets across retail, logistics, warehousing, manufacturing, field service, and public sector operations. Google-certified devices enable fast out-of-the-box setup, including Zero-Touch Enrollment and Zero Downtime Enrollment, allowing devices to receive Wi-Fi settings, security policies, OS parameters, and required business applications within minutes through a single QR code or barcode scan. IT teams can group devices, push apps from Google Play or private stores, enforce security rules, monitor status, and perform OTA firmware or OS updates centrally. Remote diagnostics, secure remote access, geolocation, battery lifecycle insights, and usage analytics help reduce downtime, simplify support, improve control, and maximize productivity across the entire device fleet.

Physical Characteristics

Dimensions	164.6 x 69.8 x 17.8 mm 6.48 x 2.75 x 0.7 in
Weight	With battery: 288.5 g / 10.18 oz Without battery: 190.3 g / 6.71 oz
Display	4.0 in WVGA 480 x 800
Display Protection	Corning Gorilla Glass III, 1.1mm thickness. The tough and durable glass that provides exceptional scratch resistance and protection against impacts
Scanner Glass Protection	Strong Protection of Scanning Module's The special protective frame (monolith part of the housing) around the glass of the scanning module. It provides maximum protection of the glass of the scanning module from hard impacts, falls, and careless use. The protection frame can withstand strong impacts from hard objects.
Touch Panel	Multi-mode capacitive touch, wet hand operation and glove operation, the screen sinks to prevent the screen from falling and breaking.
Display brightness, NIT	450 NIT
Backlight	Luxibright technology consumes very little power, provides the best color reproduction, and viewing angles, no limitations for aspect ratios, better contrast levels, the best sunlight visibility, and true black colors.
Hot Swap Battery	The device features a "Hot Swap" battery mode, enabling a seamless battery exchange before complete discharge. The transition to the backup battery (50 mAh), facilitated by a HALL sensor during the battery swap, guarantees a minimum of 5 to 10 minutes of battery life. During this interval, the device enters a specialized standby mode, providing ample time to replace the battery without necessitating a full OS reboot. All Android system settings, including wireless network connections, are preserved; open applications remain active, and data integrity is maintained. Inserting a charged battery allows for immediate resumption of work, exactly where it was paused.
Extend Memory	Micro SD x1, max support up to 512GB
SIM	Standard: nano SIM x1 +eSIM x1 Option: nano SIM x2
Notifications	Ring tone; three-color LED x2 (Status Indicator, Scanning indicator); vibrate alert
Power	High capacity battery 5180 mAh (Rated voltage: 3.85V - Limited Charge Voltage: 4.4V), With Hot Swap battery mode. Support QC 3.0 quick charge up to 4 hours till 100% (full charge). EnergyBooster+ technology allow work up to 20 hours without charging (the test was performed at the interval of pressing the scan button every 3 seconds. and the screen is turned on and connected to a wireless network with constant ping.).
Network Connections	WLAN (Wi-Fi), WPAN (Bluetooth), WWAN (2G, 3G, 4G), Pogo Pin, USB 2.0, High Speed (Host and Client)
Buttons	Enterprise physical alphanumeric keypad (21 physical keys) including 1 Fn (function) button and 5 programmable buttons (F1, F2, F3, F4, one left-side button); 3 on-screen buttons (Menu, Back, Home); Power button; Scan buttons on Left/Right sides.
Voice and Audio	Dual denoise mic, 1.5W Speaker, supports Type-C interface analog headphones
Interface Ports	USB 2.0 with OTG + 4 Pogo pin (for Cradle) + 4 Pogo pin (for Pistol Grip)

Performance Characteristics

Processor	Qualcomm Snapdragon SD662, Octa-core 2.0 GHz (CPU model: SM6115)
Operating System	Android 12 (GMS & AER) Upgradeable to Android 13
Memory	Standard: RAM 4GB / ROM 64GB; Optional: RAM 3GB / ROM 32GB; RAM 8GB / ROM 128GB
Security	Supports Verified Boot

User Environment

Operating Temp	-20°C to 60°C -4°F to 140°F
Storage Temp	-30°C to 70°C -22°F to 158°F
Humidity	5% to 95% non-condensing
Sealing	IP67 class protection from water, dust, dirt
Drop Test Report	6 ft / 1.8 m multiple drops to concrete over operating temp (certified test report)
Tumble Test Report	300hits, 3.2 ft / 1.0 m tumbles
Vibration	13000±3000 rpm
Thermal Shock	-35°C to 75°C -31°F to 167°F
Electrostatic Discharge (ESD)	±15 kV air discharge; ±8 kV direct discharge;

Sensors

Light Sensor	Adjusts display backlight brightness
Proximity Sensor	Disables display output and touch input when placed against the ear during a call
Magnetometer	eCompass to detect direction and orientation
Acceleration Sensor	3-axis accelerometer
Gyro	Senses linear orientation
HALL	Support hot swap

Data Capture

Scanning	Zebra SE4770, MEFERI SE5070, Honeywell HS7, Intelligent barcodes and image capture technology, lightning - fast data recognition and processing, optimized visualization provide ultra-fast scanning of printed and electronic 1D and 2D barcodes. PRZM technology in Zebra scanners optic, best scanning.

Discover the transformative power of the ME40K Mobile Computer. Dive deeper into its cutting-edge features and benefits at: www.meferi.com/me40k

Camera	Front: 5MP; Rear: 13MP; Rear camera supports PDAF and 1080p video shooting. Support Torch mode and Flash mode.
NFC	ISO 14443 Type A and B; FeliCa and ISO 15693 cards; Card Emulation via Host; Reader mode, Card Emulation and P2P mode.

Wireless WAN (WWAN), Cellular - Data and Voice Communications

GPS	GPS, A-GPS, GLONASS, Galileo, Beidou
Cellular Standards	4G LTE, WCDMA, GSM
Radio Frequency Band	GSM: B2/B3/B5/B8; WCDMA: B1/B2/B4/B5/B8; TDD-LTE: B34/B38/B39/B40/B41(120M); FDD-LTE: B1/B2/B3/B4/B5/B7/B8/B12/B13/B17/B19/B20/B25/B26/B28AB/B66

Wireless LAN(WLAN), Wi-Fi

Feature	Seamless roaming - The device supports WLAN (Wi-Fi) with seamless roaming, enabling automatic switching of Wi-Fi signals between access points without communication interruptions or data loss.
Radio Frequency Band	IEEE 802.11a/b/g/n/ac Wave1&2 (No 160MHz) /d/e/h/i/k/r/v/w/mc, 802.11r,OKC,PMKID caching,Ipv4,Ipv6
Data Rates	2.4GHz: 802.11b/g/n - 20MHz, 40MHz - up to 150Mbps 5GHz: 802.11a/n/ac - 20MHz, 40MHz, 80MHz - up to 433Mbps
Operating Channels	Channel 1-13 (2412-2472MHz): 1,2,3,4,5,6,7,8,9,10,11,12,13; Channel 36-165 (5180-5825MHz): 36,40,44,48,52,56,60,64,100,104,108,112,116,120,124,128,132,136,140,144,149,153,157,161,165; Channel bandwidth: 20, 40, 80MHz
Security and Encryption	WEP (40 or 104 bit); WPA/ WPA2 Personal (TKIP, and AES); WPA3 Personal (SAE); WPA/WPA2 Enterprise (TKIP and AES); WPA3 Enterprise 192-bit mode (GCMP-256) - EAP-TLS; Enhanced Open (OWE)

Wireless PAN (WPAN)

Bluetooth	BT 5.0+BR/EDR+BLE, Bluetooth profiles includes HFP, PBAP, A2DP, AVRCP, OPP, SPP, GATT
------------------	---

Standard Accessories

Power Adapter (plug: EU, CN, US, GB); Battery 5180mAh; USB Type-C Cable; Hand Strap.
--

Optional Accessories

Single-Slot Cradle; 4-Slot Battery Charger; Pistol Grip; Screen Protector (Glass); Pistol Grip Hand Strap; Holster (for Gun) ; Shoulder Bag; Protective Boot.

General Certifications

GMS & AER	Android Enterprise Recommended (Certified) with Google Mobile Services (GMS) - Enterprise API and actual updates available. Access to Android security updates for 90 days from the date of their release by Google for at least five years.
----------------------	--

Environmental Compliance

Eco-Conscious Design Meets Regulatory Compliance. The ME40K is more than just a high-performance device - it's a socially responsible choice. Built in compliance with the RoHS Directive 2011/65/EU and its 2015/863 amendment, the ME40K ensures that its electronic components are free from hazardous substances. Furthermore, adherence to the EN IEC 63000:2018 standard guarantees both user safety and reduced environmental impact. Make a socially responsible choice without compromising on performance or durability.

Additional Regulatory

US:	
Electrical Safety	UL 60950-1

MEFERI Software Suite

OmniSoftware Suite is a powerful suite of utilities and system tools designed to extend the functionality of MEFERI devices for both end users and integration partners. It includes advanced solutions for device configuration, OS customization, application management, and workflow optimization across enterprise environments.

MeOmniSoft

The suite features tools such as rapid device provisioning and configuration transfer, enterprise browser and kiosk solutions, OEM Config support, application control and lifecycle management, security patch and system update management, remote desktop (RDP) client, scanner configuration tools, OS diagnostics and modification utilities, and more.

These tools enable faster deployment, simplified device management, deeper device diagnostics, and flexible solution development across diverse industry use cases.

[Learn more about OmniSoftware Suite tools](#)

OmniIndustry App Suite is a comprehensive portfolio of industry-specific applications designed to maximize the value of MEFERI devices across real-world business scenarios. This suite includes solutions for business process automation, inventory and price management, stock control, self-scanning in retail environments, data capture, identification, payment processing, device management, secure data transmission, and more.

MeOmniApps

Developed in collaboration with global ISV and SI partners, OmniIndustry App Suite enables businesses to accelerate deployment, reduce development time, and improve operational efficiency. The portfolio is continuously expanding with proven, integrated, and market-ready applications designed for Retail, Warehouse and Distribution, Transport and Logistics, Manufacturing, Services and Field Operations, Government and Public Sector, and Healthcare.

[Learn more about OmniIndustry Suite solutions](#)

MDM EMM Solutions

MDM/EMM solutions for MEFERI devices provide a trusted, enterprise-grade approach to mobile device management and enterprise mobility. Combining MDM and EMM capabilities, they enable rapid device provisioning via Zero Touch and Zero Downtime Enrollment - allowing devices to be fully configured with all settings, applications, and connectivity in minutes through a single QR code scan at setup.

These solutions deliver centralized control across your entire device fleet, including device grouping, remote management, OTA firmware updates, application deployment and silent installation, Google Play integration, and mass updates. Advanced capabilities such as remote diagnostics and support, user management, kiosk mode, geolocation tracking, remote locking, encryption, and policy enforcement ensure full security, visibility, and operational efficiency.

Designed for scalable, secure, and efficient mobility management, these platforms support both cloud and on-premise deployment, empowering organizations to optimize performance, reduce downtime, and maximize workforce productivity across industries.

[Learn more about MDM / EMM solutions](#)

Warranty

The ME40K is covered by a 12-month hardware warranty from the date of shipment, ensuring protection during the warranty period and supporting stable device operation. Warranty service includes diagnostics and repair in accordance with defined terms and conditions, helping reduce downtime and maintain continuous business performance.

[Learn more about warranty terms and conditions](#)

MEFERI MeCare

Premium service program offering extended protection beyond the standard warranty, including comprehensive coverage for repairs, accidental damage, and additional service options tailored to project requirements. Flexible service plans help ensure long-term device reliability, reduce operational risks, and support continuous business operations.

[Learn more about MeCare service plans](#)
